

# David Cako

dc@cako.io  
Denver, CO

## Profile

I am passionate about making the world better through technology, with experience in full stack development, mobile applications, and embedded hardware. I love helping people see their ideas come to life!

## Experience

### **Owner/Full-stack Engineer, cako.io | Denver, Colorado — 2014-present**

Designed and implemented mobile applications, web applications, IoT appliances, and commercial systems. I build solutions that scale!

- Built and deployed microservices and backends in Go, Python (Flask/Django), and node.js (Express)
- Designed and implemented web and mobile applications using React, React Native, HTML, CSS, TypeScript, and JavaScript
- Built desktop and mobile applications in Swift, Objective-C, C#, and Java
- Deployed highly-available infrastructure using Docker, AWS, GCP, CI/CD pipelines, and infrastructure-as-code

### **Founder, Public Works Cooperative | Denver, Colorado — 2020**

On a mission to build communities for the future. Bringing artists and professionals together to inspire innovation, and creating a blueprint for sustainable, responsible communities. We offer design, technical, and marketing expertise at every stage of product development, and shared spaces for collaboration and retail.

### **Lead Software Developer, Exact Assembly LLC | Colorado Springs, Colorado — 2022-present**

Lead engineer overseeing strategy and architecture on a team of bright, diverse folks that build incredible hardware from the ground up.

- Sparked innovation on a goal oriented team in designing high-performance systems and integrating with embedded hardware
  - Built real-time applications in Go, TypeScript, and gRPC
  - Authored custom Linux images with Yocto
-

---

### **Product Engineer, Replit | San Francisco, California — 2020-2021**

Built innovative tools for creative and collaborative coding in the cloud.

- Implemented features for education including *Group Projects*, Templates and Payments
- Managed product lifecycle and customer feedback
- Worked in JavaScript, Flow, and Go, deploying through GitHub to Heroku

### **Technical Account Manager, Amazon Web Services | Denver, Colorado — 2018-2020**

Managed post-sales relationship and supported customers with architectural and operational leadership as they grow software solutions on our platform.

Responsible for service team engagements, key partnerships, and migrations.

- Primary point of contact for key enterprise customers
- Led architectural engagement for new features and deployments on ElastiCache, SageMaker, EKS, and MSK
- Provided operational guidance for optimizing cost, storage, and network performance
- Managed major migrations from Azure and on-premises

### **Co-creator/Lead Engineer, Saunter: Share Your Day — 2018-present**

Cross-platform application that offers privacy conscious, energy efficient visit-tracking and sharing.

- Built and deployed application using React Native and native iOS/Android code
- Implemented geolocation and fitness APIs and optimized for battery life and location tracking

### **Full-stack Engineer, Exact Assembly LLC | Colorado Springs, Colorado — 2016-2018**

Implemented front-end and back-end solutions for embedded systems and automation hardware. Responsible for synthesizing state machines, data structures, and real-time communication from complex, interdisciplinary requirements.

- Designed and implemented user-friendly control software for complex systems using jQuery, React, and C#
  - Implemented real-time communications in Python, Go, and JavaScript via WAMP protocol
  - Authored custom Linux images using Yocto and Docker
-

## **Director of Engineering, Drip LLC | Colorado Springs, Colorado — 2017-2018**

Led a team of awesome data scientists and engineers to bring water quality and water rights insights to Colorado industry professionals.

- Directed key business development goals to build a platform for real estate professionals and scientists
- Built web app and APIs in jQuery and Django for interfacing with analytics data

## **Professional Involvement**

**GoCode Colorado 2017 — Grand Prize Winner** — Drip LLC, Water Analytics and Insights for Industry Professionals

**GoCode Colorado 2018 — Competitive and Engineering Mentor**

**PyColorado 2020**

**Pikes Peak Makerspace**

**Peak Startup**

## **Education and Training**

**AWS Solutions Architect**

**Dale Carnegie Sales Training**

**Texas Virtual Academy, Lewisville, TX — Accelerated Learning Program, Science and Technology — 2011-2013**

## **Skills**

- Microservices
  - iOS/Android Development
  - REST APIs
  - Embedded Systems
  - AWS / GCP / Azure
  - Serverless
  - Cost Optimization
  - UI/UX Design
  - Business Outreach and Sales
  - Technical Presentations/Public Speaking
  - Internet of Things
  - Custom Linux Images and Administration
  - Streaming Data Ingestion
  - Payment Processing
  - Real-time Systems
  - Geolocation
  - Containerization
-

- 
- Automation
  - Continuous Integration and Deployment

## Technologies

- JavaScript / TypeScript / node.js
- Go
- Python
- HTML / CSS
- React / React Native
- jQuery
- SQL / Postgres / SQLite
- Swift
- Objective-C
- Docker
- Kubernetes
- Git
- Stripe Payments
- Bash / Shell Scripting
- Java
- C#
- Rust
- C/C++
- Google Maps
